MISSION AND PURPOSE

Through Co-Active® training, CTI is creating a transformative change in the way people relate to and work with each other. The work inspires people to feel engaged in and passionate about their life and work, see the good, get curious, create interactions unlike any other, become visionary, feel more alive, connect deeply to others, give real meaning to their lives, think much bigger, become great leaders and make a difference. The Co-Active® model has spawned a philosophy, a methodology, a skill set and a communication form that is being applied in business, education, medicine, government, communities and families all around the world.

Co-Active Coaching® is an experience of personal and professional development unlike other kinds of coaching. Based on the Co-Active® model, it begins by holding the coachee as naturally creative, resourceful and whole, and completely capable of finding their own answers to whatever challenges they face. The job of a Co-Active Coach® is to ask powerful questions, listen and empower to elicit the skills and creativity a client already possesses, rather than instructor advise. Co-Active Coaching® uses an array of proprietary tools developed by CTI that have been proven as the gold standard for more than 20 years in the coaching profession.

THE CURRICIULUM

CTI's Co-Active® Coach Training Program integrates three foundational principles that help the coaching client enhance both the quality and results they experience in life and work. The conversation about these principles begins in our Fundamentals course. The next three courses focus on the principles themselves: Fulfillment — deriving deep meaning and satisfaction from life; Balance — viewing the world from an empowered stance, making powerful choices and taking effective action; and Process — fully experiencing the richness of any given moment. The fifth course is Synergy, which integrates all of the learning principles into one powerful cohesive skill called Co-Active Coaching®. The five in-person experiential workshops are followed by our six-month virtual Certification Program. The Certification Program begins the road to mastery as a Co-Active Coach® and includes hands-on coaching, ongoing group work and one-on-one supervision of actual coaching sessions. After successful completion of the program, students are eligible to take the written and oral certification exam, with the goal of becoming a Certified Professional Co-Active Coach® (CPC). CTI's Co-Active® Coach Training Program will prepare you to coach anyone, on any topic. One of the cornerstones of the Co-Active® model is that we focus on the whole person, not just one particular part of their life. People aren't compartmentalized. They are multi-faceted and dynamic, and our model allows you to work with whatever topic your client chooses. And if a client wants to get coached on their health and wellness, or their board meeting challenges, or their relationships, you will be equipped to do so.

The Co-Active Coaching® model is simple, elegant and adaptable in any coaching situation: personal, executive, group, wellness and many more. With CTI's diverse and incredibly in-depth training, you can coach anyone on anything with confidence that you are supported by the most flexible and proven model in the coaching world. CTI's flagship training program is the Co-Active Coaching core curriculum. This coach training program is fully accredited by the International Coach Federation (ICF) and has been delivered across the globe for over 20 years. CTI was the first coaching school accredited by the ICF and is the largest in-person coach training school in the world. Over 40,000 people have had exposure to CTI's acclaimed Co-Active® Coaching methodology.

The core curriculum is comprised of the five (5) highly interactive Co-Active® Coach Training workshops. Key elements of each of workshop include:

- Live demonstration of Co-Active Coaching® by two course leaders: This provides learners with awareness of the skills of Co-Active Coaching® by actual example.
- Application exercises designed to have participants practice a range of coaching skills in actual coaching conversations with colleagues in the workshop.
- Group coaching exercises that provide learners with a chance to witness others applying the skills of coaching, providing "learning through others."
- Learning exercises that are based on current, real situations that participants encounter in the workplace (not role play).

Important: You can miss no more than one hour of each of the following courses in order to pass them and move onto the next course in the series. You can take these five courses at your own pace.

Pre-requisite Courses: Core Curriculum

The Core Curriculum are pre-requisite courses and not part of the distance learning program; attendance in these pre-requisite courses is required and documented; there is no formal feedback other than the presentation of a Certificate of Attendance upon completion of the entire Core Curriculum. The student must have completed 4 of the 5 Core Courses prior to entering into the Certification Program.

Client Roster

The students must maintain a roster of 5 paying clients throughout the Certification Program. The roster is submitted by the student as documentation to headquarters administrative staff by the second Topic Module Call (week 3). There is no feedback other than acknowledgement of receipt; usually within 1 business week.

Complete 100 Qualifying Coaching Hours

To be eligible to take the Oral Exam at the end of the program, the students must document hours engaged in Co-Active Coaching® sessions. They can begin counting these qualifying hours beginning in the first month of their Certification Program.

Credentialed Coach

The student is required to work with a CTI credentialed CPCC coach. The student is required to receive at least one hour of coaching each month during the first 6 months of the Certification Program while engaged in the tele-meetings with their Certification Program Leader. The student must document these hours prior to sitting for the Oral Exam. Of these hours with their individual coach, a maximum of 12 hours will qualify towards the 100 Coaching Hours requirement.

The fee for the individual coach is not included in the program tuition. (See fees section for more details.)

Course Calls

There are 25 weekly pre-scheduled 90 minute calls that are central to The Program. The student must attend at least 21 of those calls. Absence of more than 20 minutes in a session constitutes a missed session. Attendance is monitored by the Certification Program Leaders on 13 of those calls (the Topic Module Calls), by a Group Supervisor on calls in weeks 2, 4 and 6. The remaining 9 calls are Triad Practice Calls. The student may miss 2 of the Topic Module Calls, 1 Group Supervision Call, and 1 Triad Practice Call. At the end of the program the student documents their attendance as part of their program completion submission. Students who exceed the number of allowable missed calls are most often asked to withdraw from the program unless there are extenuating circumstances and we are able to find a viable way for the student to make-up for a missed session by scheduling individual time.

The fees for missed sessions that may be incurred are not included in the program tuition.

Telecommunications costs incurred by the student for these course calls are not included in the program tuition.

Homework

Each of the 13 Topic Modules has a variety of activities for the student during the two week focus on the specific topic — required audios, required reading, practice, reflection. For each Topic Module, there are two aspects of documenting their discoveries, insights, remaining questions related to the topic.

The student must complete and submit a comprehensive Homework Journal as part of their documentation of completion at the end of the program. There is no feedback on the Homework Journal as it is focused on the student's personal growth through the program; it is checked to confirm completion.

For each learning community, there is also a public Homework Discussion in which the students respond to case studies, challenging situations or application of concepts questions. The students often provide feedback to each other in these discussions. While participation is not required, it is highly encouraged as a way to prepare for the final Written Exam. The

student is expected to contribute to each of the discussion threads by the completion of the relevant Topic Module. The Certification Program Leader monitors and contributes to this discussion and will provide relevant feedback by the end of the Topic Module period.

Mid-Program Review (MPR)

At the mid-point of the Program, the student will meet with her/his Certification Program Leader (CPL) for a 30 minute review conversation. The MPR includes a standard update report the student submits on progress in meeting the Program requirements as well as discussion on where the student is regarding their own personal goals in the session. It is an opportunity for the student and the CPL to strengthen the relationship with the program and to reset goals for the remainder of the program. Generally, there is no specific feedback given to the student relating to performance. The MPR form from the student and any pertinent additional discussion items are documented and then submitted to the student's files.

Telecommunications costs incurred by the student for the MPR call are not included in the program tuition.

Supervision

The student will be assigned to faculty who will give the student feedback on coaching the student demonstrated. Using a common form identifying the skills, tools and competencies of The Co-Active® model, the feedback is verbally given at the time of the Supervision Appointment. The student maintains her/his own copy; the Supervisor submits a copy for the documentation in the student files.

Three of the Supervisions are in a Group Supervision setting and are regularly scheduled calls (see Course Calls above). Additionally, the student will have 6 Individual Supervision calls that are independently scheduled between the student and the Individual Supervisor. Each student has two Individual Supervisors; the student meets with each supervisor three times. The student is responsible for scheduling 1 supervision for each of the first 6 months of the program.

For the Individual Supervisions, the student is required to submit a recording of coaching with a private client (with the client's written approval

The student cannot sit for the oral exam until supervisions have been documented.

Costs incurred by the student for the recording equipment or services or for the file submission of the recordings are not included in the program tuition. If the student must schedule an Individual Supervision to make up for a missed call, there may be an additional fee of \$155. (See fees section for more details)

Telecommunications costs incurred by the student for these supervisions calls are not included in the program tuition.

Required Reading

In addition to the manual that is provided as part of the Certification Program and contains specific reading assignments, the student is required to read Co-Active Coaching 3rd edition.

The costs incurred by the student for Co-Active Coaching 3rd edition are not included in the program tuition. The Certification Manual is not an additional cost unless the student requests a hard copy.

Open Topic Calls and Podcasts

In addition to the audios that are part of the required homework, the student is required to listen to 4 one-hour long Podcasts and to at least two choices from a library of one-hour long Open Topic Calls. The Podcasts and the Open Topic Calls address areas of interest not covered in any of the specific Topic Modules but are relevant to the professional development of a Co-Active Coach®.

The Open Topic Calls and Podcasts are referred to in the Homework Discussion area and in the Mid-Program Review. The student must document which of the Open Topic Calls they have listened to as part of their program completion documentation.

Exam

There are two qualifying exams for the CPCC designation — the Written Exam and the Oral Exam.

The student has a two week window to complete the Written Exam which must be submitted by the final Topic Module Call with the CPL. The CPL evaluates the written exam, submits it to headquarters, and the student is notified if they have passed or failed within (a maximum of) 4 weeks from the final Topic Module Call. There is no feedback on the successful exam. If the exam is not passed, the student will meet with the CPL for feedback discussion and the student will have the opportunity to resubmit the Written Exam. The student will be notified within 2 weeks of submission on a retake. There are no fees for the student associated with the Written Exam.

The Oral Exam is independently scheduled once the student has submitted all the necessary documents including their completion of 100 qualifying hours. The student is notified within 2 weeks if they have passed the oral exam. If they have

passed there is no additional feedback. If the student has not passed, the student will be given a one-hour session with one of the examiners for feedback and for identifying a plan to prepare to retake the exam. As part of that process, the student is provided with audio file recordings of their demonstration during the Oral Exam. The student will then schedule to take the Oral Exam again. The students who retake the Oral Exam are notified of their results within 48 hours.

The cost of taking the Written Exam and the first Oral Exam are included in the program Tuition. If there is feedback required for a failed exam, that feedback is provided without an additional fee for that professional time. Telecommunications costs incurred by the student for these exam or exam review calls are not included in the program tuition. For the Oral Exam, there is an additional fee for any 'retake'.

For the student who has successfully completed all requirements of the program, including the documentation and the Written and Oral Exams, we send the official designation Certificate within 30 days of completion of the Oral Exam.

Student participation and engagement in our programs is essential. Students missing more than one hour on any given day of a course may be asked to retake the course or placed on probation. Students not fulfilling the participation requirements of the Certification Program may be asked to withdraw from the program and/or reapply at a later date.

Students disrupting or inhibiting the learning of others in courses or the Certification Program will be asked by the leaders to leave or withdraw.

GRADING, CREDIT, ETC.

Upon completion of the Intermediate curriculum, you will receive a certificate of completion. The Coaches Training Institute does not give out grades for courses. The Coaches Training Institute courses are designed to be taken in the following sequence—Co-Active Coaching Fundamentals, Fulfillment, Balance, Process and Synergy. CTI does not accept life experience, prior education or courses taken at other schools to advance in our curriculum or skip a course. Completion of the Beginning and Intermediate curricula is required to begin the Certification Program.

During the Certification Program, the Certification Program Leader (CPL) and Supervisors provide narrative feedback on your coaching progress, peer feedback on a bi-weekly basis; specific feedback on the context and principles of Co-Active Coaching, as well as specific competencies, weekly homework assignments and an oral and written examination. Progress is also measured by a Mid-Program Review conducted by the CPL. The Mid-Program Review is scheduled individually with each student. The focus of the review is to 1) Evaluate the student's above the line coaching skills, which is measured and graded on a scale, from the Supervision Stat Sheets and 2) Prepare the student for the Certification Exam.
